

ABOUT THE FOUNDATION

The Tri Valley Medical Foundation (TVMF) was established in 1990. We are a charitable tax-exempt corporation formed for the sole purpose of supporting and enhancing the healthcare mission of Tri Valley Health System. Our success in doing so is largely thanks to business partners and local donors like you.

Over the years, our golf tournaments have been a critical part of our fundraising efforts to support the current and future needs of Tri Valley Health System. Since the first year of the tournament, thousands of dollars have been donated by TVMF. These funds are used at Tri Valley Health System's multiple locations throughout rural Nebraska.

This year we are raising funds for a syringe infusion pump and a neonatal phototherapy system with bili light meter. "Tri Valley Health System strives to provide quality patient care, ensuring the safety of our patients and employees, and to have the most up-to-date equipment at our facility. The Novum IQ syringe infusion pump offers infusion therapy that integrates with digital health solutions to advance safety and efficiency of medication delivery and management. The Skylife Neonatal Phototherapy System enhances safety for patients and employees by reducing bedside equipment and provides high quality treatment for neonates diagnosed with jaundice. The Bili light meter measures light delivered for neonatal jaundice treatments," said Tri Valley Health System CEO Jessica Fisher.
